Honorable Commissioner for Patents
Washington, D.C. 20231

Amendment
March 10, 2005

Honorable Commissioner for Patents:

In response to the January 12, 2005 communication concerning the above identified patent application, please amend the application as follows.

In the Contents of the Application

Information is added to meet submittal requirements and the application pages are organized and numbered. All new sheets are attached to this amendment and dated March 10, 2005. These sheets will replace all previous sheets and documentation provided in the Original Application dated February, 28, 2002, the Continuance of Applications dated June 14, 2002, February 24, 2004..

In the Specifications (page 2):

The specifications listed on one page (not numbered) in the Original Application dated June 14, 2002 are cancelled.

The original specifications were replaced with those listed on page 2 of the Continuance of Application dated January 27, 2003. These specifications are replicated below as they are not changed from the Continuance Application dated January 27, 2003.

The invention consist of four (4) pieces of metal fabricated to 90 degree corners and is used in conjunction with beam clamp assemblies. Drawings (Figures 1A and 2A) describing the bar Clamp Corner Squaring Devices in detail are attached

The metal fixtures are made from 1/8" band iron and are welded in the corners and at the base.
